 This resource covers multiple competency areas. A programme for adults teaching basic skills in using and getting creative with digital photography. From saving a photo on the computer to ordering a present with one's own photo on it. It is meant for use in guided contexts. It consists of a workbook with theory and exercises and an e-learning module. The e-learning module contains four topics, including voice guidance. Workbooks can be purchased by instructors and educational organisations. The e-learning module is accessible online for free.
